

## Tour 8 - Wicked Hilly Triple Notched Century - 101.7 miles

The winding Kancamagus Highway is one of the area's most scenic roadways. It stretches for over 30 miles and even has an annual time trial to its top. The century uses a portion of the Kanc (that's local speak.)

The Kanc is a slow steady climb just to warm you up, but Bear Notch Rd off the Kanc is first serious climb.

Pinkam Notch past the Mt Washington Visitor's Center entrance is your second serious climb and the highest and longest climb of the ride.

Recharge with a shady lane ramble along the Androscoggin River, then finish your day of notch climbs with glorious Evans Notch. Watch that last descent. Some tough curves will sneak up on you after a long day of climbing.

Ride starts with the well traveled route over to Conway village so we can get the ride-proper underway.
